# EXTENSION KIT FOR EXTRA TALL TRUCKS

Lifting trucks for higher ground clearance and oversized tires is all the rage from coast-to-coast, but for every big lifted truck, there's an equally big leap to gain access to the cab. That's why AMP Research developed the Extension Kit, to make climbing into or out of tall trucks easier by giving the boards an extra 2-inch drop when deployed.

Constructed from solid, machined billet aluminum with black anodized finish. Each kit contains 4 extension arms and all required hardware for easy bolt-on installation. Works best with lifted Ford Super Duty and Dodge Ram trucks.

RETRACTED POSITION

EXTENSIONS PROVIDE AN  
EXTRA 2-INCH DROP

EXTENSION KIT – PART NUMBER 80-03093-90
